

THE NEW

i900 2.0

- NEW **2.0MP** CAMERA
- 30%** MORE ACCURATE

i900 Series

High quality **100%**
inspection systems

Regg Inspection designs and manufactures high quality inspection systems with modular design.

Feeding

- Fully Integrated feeding system for smooth and fast inspection.
- Widest choice of feeding system depending on inspected part.
- Single piece loading or fast continuous loading.
- Ready to accept customer's feeding systems.

Positioning

- A special tape is used to transport the pieces.
- All parts are always in a traceable position from entrance to exit chutes.
- Up to four (4) inspection modules plus two (2) exit chutes.
- Robust module frames and supports for precision and durability.

Control

- Camera modules.
- Latest vision technologies.
- Standard High resolution digital firewire cameras.
- Special Ultra-High resolution camera for controls.
- Highest quality bi-telecentric optics.
- Highest quality telecentric led direct/backlight.

Exit chutes

- Two exit chutes.
- Packing.
- Conveyors.

Peripheral equipments

- Vacuum system.
- Teleservice.
- Barcode scanner.

Features & benefits

Machine design

Modular Design

- Possibility to upgrade the machine with additional inspection modules for a calibrated investment.

Highest quality pneumatic, electric and mechanical components for reduced maintenance and increased up time.

Surround enclosure designed for ease of sight and ease of entry for operator and management.

Wide doors on any machine side with safety switches for easy machine access for easy change over and maintenance. Swinging operator panel easy accessible in all positions.

Machine control

Easy and intuitive Human Machine Interface (HMI) both for operators and programmers.

- Wide Touch screen control panel.
- All controls integrated into one screen.
- Help on line for easy troubleshooting.
- All data and trend visible.
- All data recorded and exportable via USB or WiFi.

Two onboard computer for ideal separation of system functionality and operational assurance.

- Industrial Computer for program software utilizing Windows 7 operational software.
- PLC computer for managing support equipment including, tape movement, units synchronization, loading and off-loading. Industrial PC for durability and reduced maintenance.

Two separate and sealed electrical cabinets for reduced interference, easier maintenance and longer electrical components life.

Modular design

The machine can be equipped with up to 4 vision modules for a complete and accurate part inspection.

Skilled staff

The company has a highly skilled technical staff, which is able to design and manufacture the highest quality inspection systems in the market.

Service

Service center with skilled technicians are based in all main markets.

Machine Specifications	i900 Linear
Min / Max Dia. (mm)	10 - 40
Min / Max Height (mm)	2 - 30
Max camera number	4
Max Speed (pes/min)	400
Dimension (mm)	900 x 1700 x 2200
Weight (kg)	300

All specifications are subject to change without prior notice. All pictures are for reference only. © Copyright REGG Inspection S.r.l.
